## General Information

The route of the Pigg River Ramble, this section runs from Waid Park to Lynch Park in Rocky Mount. A Class I run, this is the perfect river for new paddlers. Eight miles (about four hours floating time) of gentle runs with small riffles characterize this historic stretch of river. Pleasant floating can be anticipated when the USGS Blackwater River Gauge is running between 2 and 3 feet. Mandatory take out at Lynch Park to avoid a deadly low head dam hydraulic found 100 yards downstream.

This route is known for interesting rock formations, late spring trout fishing, and for its role in Franklin County's Colonial era iron industry.
